# AWS to Hybrid

Cost savings. Easy provisioning. Application enabling. Learn about how we can migrate you from AWS to your OpenStack hybrid cloud solution

**USE CASE**AWS MIGRATION **TO UNITAS HYBRID CLOUD**

UNITAS GLOBAL DESIGNS AND DELIVERS FULLY MANAGED OPENSTACK HYBRID CLOUD SOLUTIONS, PURPOSE-BUILT FOR YOUR CORE BUSINESS NEEDS.

	45% AVERAGE SAVINGS WHEN MOVING FROM PUBLIC TO HYBRID
<b>5days</b>	HYBRID CLOUD ROADMAP CAN BE DEVELOPED BY UNITAS WITHIN 5 DAYS
	79% OF CURRENT AWS CUSTOMERS ARE RUNNING HYBRID CLOUDS
	OUR CERTIFIED ENGINEERS ARE AVAILABLE 24X7 TO ANSWER YOUR QUESTIONS AND CARE-TAKE YOUR ENVIRONMENT

Unlock performance and realize savings with Unitas hybrid cloud.

***Control Performance. Control OpEx. Control your IT.***

**USE CASE**AWS MIGRATION **TO UNITAS HYBRID**

“MY AWS BILL IS OUT OF CONTROL AND MY APPLICATIONS, PROCESSES, AND RESOURCES ARE ALL TIED TO AWS.”

When your applications are built on the foundation of Amazon Web Services, it can be difficult to find the necessary expertise to migrate your IT infrastructure to a Hybrid Cloud Solution. With the technology and resources you need for your environment, Unitas Global can efficiently design and deploy your roadmap to Hybrid Cloud.

**GLOBAL** With access to over 130 of the top data center facilities worldwide, Unitas can host your infrastructure in a location that is best suited for your business.

**SECURITY** With security at the forefront of OpenStack hybrid cloud concerns, we tackle vulnerabilities head-on. We can architect a solution to fit your security requirements that meet your compliances. Using secure data messaging, encryption, and physically separated tenants, you can sleep easy. Our highlighted security compliance standards include but are not limited to: SOC2, ISO 27001, HIPAA, PCI DSS.

**SIMPLE PROVISIONING** Just because your OpenStack hybrid cloud solution is complex, doesn't mean provisioning needs to be. Our single pane view allows you to spin up VMs in your private and public clouds, all through one login.

**TECHNOLOGY AGNOSTIC** Because we are fully vendor agnostic, independent from any hardware or software company, we truly support a multi-vendor approach to fit the needs of your applications.

**MANAGEMENT AND CONTROL** We back your Hybrid

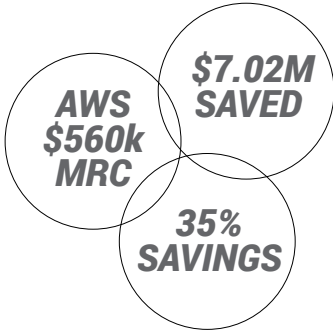

cloud solution with an end-to-end SLA that guarantees application uptime. Our cloud management center operates 24x7 to provide real time monitoring and management of your IT environment.

**OUR PROCESS****UNITAS SERVICES INCLUDED IN YOUR MIGRATION**

- Detailed and customized workload migration roadmap, including timeline, required resources and actionable items
- Establishment of seamless and secure connectivity with on-premise data and applications. Proprietary tools and partner technologies to move your workloads to target cloud platform
- Cost transparency and defined deliverables to minimize risk and maximize your return
- Systematic testing of applications and services. Project documentation, training and knowledge transfer for your environment
- Delivery of a fully managed service on a OpEx Model
